INQUIRIES: For further information about statistics in this publication and the availability of related unpublished statistics, please contact Information Services on Melbourne (03) 615 7000 or any ABS State office.

NOTES

The aim of this publication is to provide users with a range of the latest statistics available at the end of each month of issue. Consequently the dates and periods shown are not always the same for each table, but are in each case the latest figures available at that time.

Seasonal adjustment

Seasonal adjustment is a means of removing the estimated effects of normal seasonal variations from economic time series so the effects of other influences are obvious. Seasonal variations are the systematic (though not necessarily regular) intra-year movements of economic time series. These are often the result of non-economic phenomena, such as climatic changes, and regular religious festivals e.g. Christmas and Easter.

Trend Estimate

Smoothing seasonally adjusted series produces a measure of trend by removing the impact of the irregular component of the series. The trend estimates are derived by applying a 13-term Henderson weighted moving average to the respective seasonally adjusted series. Readers are reminded that trend estimates are subject to revision as subsequent months' data become available.

SELECTED FEATURES

Retail Turnover

The trend estimate of retail turnover in Victoria for February 1995 increased by 0.5 per cent from the January 1995 level to \$2,178 million. This is 9.9 per cent higher than the February 1994 level.

At the national level, the trend estimate of retail turnover increased by 0.3 per cent from January to February 1995, to \$9,377 million. This is 6.8 per cent higher than the February 1994 level.

Unemployment Rate

The trend estimate of the unemployment rate for Victoria decreased to 9.3 per cent in March 1995 from 9.6 per cent in February 1995. This is a decrease of 0.2 per cent and is the 19th consecutive decrease since September 1993. The trend unemployment rate decreased by 2.1 per cent from the same period last year.

For Australia the trend unemployment rate decreased by 0.1 per cent to 8.8 per cent in March 1995 following consecutive monthly decreases since November 1993.

For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L: premium rate 25c/21.4 secs.)

This number gives 24-hour access, 365 days a year, for a range of statistics.

Electronic Data Services

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about these electronic data services, contact any ABS Office (see below).

Bookshops and Subscriptions

There is a large number of ABS publications available from ABS bookshops (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are supplied by mail on a regular basis (telephone Subscription Service toll free on 008 02 0608 Australia wide).
